**Special Meeting**  
**5 August 1999**

- Welcome Members and visitors. I might mention here that we owe a debt of gratitude to both the WASAH/CALM Liaison Subcommittee of Jamie, Mike and Simon; and the representatives from CALM here tonight, for being instrumental in assisting things to progress to this stage.
- Tonight's special meeting has been called for the single purpose of allowing those representatives from CALM's Wildlife Branch to speak to us on the new keeping regulations, specifically,
  1. on their progress,
  2. what CALM intends these to cover, and
  3. how CALM intends to apply them.
- This is not a forum for individuals to raise any personal problems they may be having with the department.
- I would like to extend, on behalf of the members, a special welcome to CALM's representatives, its Wildlife Branch Manager, Mr Gordon Wyre and Chief Wildlife Officer, Mr Dave Mell.
- Gordon and Dave have willingly given their time to apprise us of where the new system is at this point in time. Let us all afford them every courtesy and listen to what they have to say.
- Regarding questions - if Gordon and Dave allow questions to be asked, keep these until they have finished their presentation - and remember they must be limited to the subject at hand, not related to personal problems, or I will be forced to reject anything contentious and move to the next one.
- Thank you!
